TI - COSMETIC SAPROPELIC MASK

AB - FIELD: medicine, cosmetology. SUBSTANCE: the suggested cosmetic sapropelic mask contains a foundation out of natural mineral components, plant oils, biologically active substances and additives of natural and chemical origin and water. Moreover, as a foundation one should use homogenized curative sapropel of 90-95 % moisture content. The mask in question provides deep purification of facial skin pores, intensive penetration of nutritive elements of mask's composition into cutaneous cells, nourishes, stimulates and maintains skin in a smooth, fresh state. EFFECT: higher efficiency of results. 7 cl, 5 ex, 3 tbl
